**Storage Equipment  
Manufacturers'  
Association**

### SEMA Distributor Company

A SEMA Distributor Company (SDC) is a professional organisation engaged in the supply of storage equipment, products and systems to end users.

### The SEMA Distributor Group

SEMA Distributor Companies belong to the SEMA Distributor Group (SDG) which is a dedicated grouping within SEMA. Where supply contracts include installation, SDG members also comply with SEIRS (the Storage Equipment Installers Registration Scheme).

### SEMA Brand

SEMA is a well respected and well recognised brand within the industry. In upholding the SEMA brand, SDG members are required to conform to all applicable SEMA standards and procedures in the supply of storage equipment into the market.

### Use of the SDC logo

There are many distributor companies operating in the UK but only SEMA Distributor Companies are permitted to use the SEMA Distributor Company logo. The logo denotes the supply of new or original storage equipment and offers assurance to the end user.

*“SEMA Distributor Companies are committed to delivering the highest standards in the supply of quality storage equipment, products and services in line with the SEMA Codes of Practice, procedures and brand”*

## Our promise to you

### SEMA Codes of Practice & Standards

We work to the latest industry standards and Codes of Practice.

### Policies and SEMA Initiatives

We are committed to SEMA Safety Initiatives and have in place appropriate policy documentation such as a company Health and Safety Policy.

### Commitment to SEIRS

Our installers carry valid SEIRS ID cards.

### SEMA Products & Quality

We ensure all of our products and system designs conform to the SEMA quality programme.

SEIRS is the Storage Equipment Installers Registration Scheme, a safety initiative of SEMA for individual installers of storage equipment.
